Featuring the teaching of

Tani Cohen-Fraade

Sanctity in the Beit Midrash (9:15p)

It may not have a mountain peak, but it has a Torah. It even has a wall. Where do we find holiness locally?

Nathaniel (Tani) Cohen-Fraade was born and raised in New Haven Connecticut at [BEKI](#) (and in his parents' home). He attended Muhlenberg College in Allentown, Pennsylvania where he received his B.A. In History and Religion with a minor in Jewish Studies. He taught in the Jewish communities of Southern Connecticut before moving to Israel where he lived and worked on Kibbutz Yahel for two years. He is a graduate of the [Pardes](#) Educators Program and has a Masters degree in Jewish education from [Hebrew College](#). He is a lead teacher in Judaics in the Upper School of [Luria Academy of Brooklyn](#).

Gadiel Robbins

Just Managing (10:15p)

Shavuot celebrates the intersection of the material and the spiritual. How do we manage this meeting?

For details on this presentation, see the listing in Events & Activities at beki.org.

Gadiel Robbins is a BEKI member who lives in New Haven with his family. He is a frequent leader and participant in Shabbat Services, Children's Programs, and Daily Services. Gadiel is Associate Professor of Management at Southern Connecticut State University.

Jay Sokolow

King David & The Census (11:30p)

There are three kinds of people: Those who can count, and those who can't. Why is Moses the Lawgiver *compelled* to conduct a census, while King David is *censured* for doing so? This shiur will try to make some sense of it, if not reach consensus. The *shiur* promises to be sensational.

Dr. Sokolow received his doctorate of medicine from University of Vermont College of Medicine. He completed his Diagnostic Radiology residency at Department of Diagnostic Imaging Yale - New Haven. He is certified by The American Board of Radiology and is Chair of Committee on Physician Health, New Haven County Medical Society, and Trustee of the Board of Governors. He is a Past President of BEKI and is married to BRS Principal Ina Silverman.

The shiur and Tiqun conclude a little after midnight. Shiur descriptions are preliminary.
