Jonathan D. Mohr

Shemita & Yovel as Revolutionary Equality (11:00p)

Jonathan is a graduate of Wilbur Cross High School and a student at Brandeis University. He has been studying the laws of *shemita* and *yovel*, the seventh-year and 50th-year expiry for debts and fallow year for croplands. He believes that these laws represent a radical approach to wealth inequality, and portray how concerned the Halakha is with societal welfare.

The shiurim and Tiqun conclude after midnight. To sponsor for next year or endow this annual event contact office@beki.org. *Doors locked – from the inside – for security purposes at 11p, but you can always get out, if so determined.
