

# YEAR IN MOTION

שנה בתנועה

*A film screening  
and dialogue event with filmmaker Laina Pauker, a member  
of the BEKI community and a recent college graduate.*

This film documents an experience of a gap year in Israel. It is a personal narrative that can act as a window into broader issues. Young people considering study or travel in Israel are especially encouraged to come see the film and participate in the conversation.

Please join us for this interesting film and an interactive post-film discussion with Laina. Free and open to the public. Light refreshments will be served.
